

Sebastian's Fine Food Company is a new business in Thunder Bay, Ontario, founded on the principles of old-fashioned quality, service, and value.

Partners and owners are President, Al Sebastian, and Executive Chef, Donald Harris. Al has several years of experience in the food service industry, and has created the company's Marketing Program, based on extensive research and market testing throughout Northwestern Ontario. Don is a classically trained, accredited, Certified Canadian Chef. His culinary talents are the foundation of the business.

Sebastian's boasts a unique and extensive product range, including the best quality meats available from all over Canada. In addition, Chef Don has created dozens of original treats, hand-made in the company's Thunder Bay kitchen -- making meal and snack planning easier for you. Watch for weekly-advertised specials.

WHAT'S NEW? Introducing Sebastian's Executive Shop-at-Home Service, designed for people with busy lifestyles. All products are pre-portioned, vacuum-packed, and sold/distributed in full case lots.

All of our meat, seafood, and exclusive gourmet items are of the highest possible quality, and contain no preservatives, additives, artificial flavors, or colors. [This includes the bread used for all of our breaded products.]

Our goal is to provide Northwestern Ontario residents and businesses with unique products, and an alternative to conventional fundraising opportunities. We have developed an exciting, incentive-based program, which is both fun and rewarding for participants.
