## Canadian Classic Fishfry Production Plant

Request	Project Funding
Project Location	Thunder Bay, Ontario, Canada, North America
Sector	Food, Manufacturing
Size (in USD)	\$200,000.00 - \$300,000.00

### Description

- Three years of test marketing has proven my products viable on the market.
- Personal investment to date: \$85,000.00
- Test market sales to date: \$180,000.00
- Products are now being distributed across Canada. Market continues to grow.
- Small production plant used for test marketing cannot sustain projected growth.
- Alternative producer with adequate production capabilities is now needed.
- It is far more cost effective and profitable to open my own plant.
- Prices will be reduced, market share and profit margins for all will increase.
- Sales projections year 1 - \$552,000.00 to reach \$800,000.00 + by year 5.
- Long range goal - \$3,000,000.00 in annual sales.
- Total annual Canadian market potential - \$6,000,000.00
- Profit margins are high and will grow with increased production levels.
- I cannot obtain financing from traditional lending institutions.
- I need a single investor for the full amount. Minimum required - \$185,000.00
- Investor will more than double their money in five years.
- A Government Grant application is currently being processed.
- Grants and loans may cover 50% of eligible equipment, construction, training
- Funding must be in place by March 31, 2013.
- Equipment and supplies must be ordered by April 5, 2013.
- Production and shipping must begin by May 01, 2013.
